HELLO

User Experience Designer with 3+ years of experience with skills front-end development. Providing strong problem-solving skills and a keen eye for intuitive and accessible interfaces. An excellent communicator and collaborator who works well in team-based projects and independently with very strong interpersonal skills. Effectively leveraging interest in solving complex problems by contributing as a part of a fast-paced, quality-driven team.

EDUCATION

M.A. Interactive Media
July 2016 to May 2017

Elon University | Elon, NC

August 2007 to May 2011
B.A. Media Arts & Entertainment

Elon University | Elon, NC

Experience

Experience Designer
October 2019 to January 2021

Harte Hanks @ Cisco | Raleigh, NC

- Created high fidelity prototypes in Invision that are implemented on Cisco.com
- Defined and implemented new design system for Cisco CX emails
- Defined standardization requirements for all Digital Lifecycle Journeys team pages
- Participated in release deployments
- Participated in maintaining the React Cisco UI library
- Created and maintained visual assets
- A11Y enhancements and suggestions as needed

User Interface Designer
May 2017 to October 2019

BB&T | Raleigh, NC

- Designed and optimized components for public sites
- Created and maintained visual assets
- Fixed functional and accessibility defects when discovered
- Maintained git repository with all code related to public sites

Project Lead - Preservation
July 2011 to June 2016

HF Group | Browns Summit, NC

- Served as representative for Federal Government Clients
- Maintained client standards
- Coordinated handling and scanning of antique publications
- Created high-resolution PDFs and preservation facsimiles

NOTABLE PROJECTS

Email Template Library
September 2020 to January 2021

A new design system for Cisco CX emails intentionally designed to not look like marketing emails. I was in charge of defining template layouts, visual elements, implementing design system as requests were made, and building the master Sketch file for the system.

media.truist.com
August 2019 to October 2019

The homepage and news aggregate page for Truist bank that would take the place of BBT and Suntrust bank's media pages. I designed the layout and UI elements based on then-current BBT components so as to speed up implementation using Adobe AEM.

bbt.com
May 2017 to July 2019

I was part of the design team that designed and implemented the new bbt.com for launch in June 2017. My responsibility included defining the page layouts for the Small Business and Commercial sections of the site. Post-launch, I aided in the design and development of UI improvements and more targeted components to be implemented on the personal section of the site, namely the cash rewards calculator.
